

Certified Construction Artisans DIRECTORY

2006/7

Published by:
National Council for Economic Development
in Collaboration with
UNDP

TOWARDS ACHIEVING MDGS

PROVIDING EXCELLENCE
TO SRI LANKA'S
CONSTRUCTION INDUSTRY

It gives me a great pleasure to be associated with this unique skills development programme, which has now released 500 skilled artisans to the construction industry in Sri Lanka. This programme has well captured the vision of His Excellency the President on youth development “Jeevithayata Hekiyawak, Hekiyawata, Rakiyawak” and the essence of the MDGs, Goal number 1 – Eradicate extreme poverty and hunger by 2015.

These 500 selected youths from 8 districts in Sri Lanka, including North & East were scientifically trained, provided with international standard safety equipments, professional tool kits and accredited by the world-renowned accreditation institute – City & Guilds of London. I am also proud to note that all the artisans trained by this programme, are now employed in the construction industry earning well above an average artisan. These facts confirms the evolution of this programme as a “model for skills development in Sri Lanka”.

In this happy occasion, it is my duty to thank our development partners, UNDP, JICA, Technical Colleges in the 8 districts and the National Construction Association of Sri Lanka who extended their fullest support and contributed immensely for the successful completion of this programme and we look forward to their continued support to implement similar programmes of this nature in other districts in the future.

Sherman Gunatillake
National Programme Director – MDGs
National Council for Economic Development

I am particularly happy the UNDP has contributed to the success of this skills training activity through its Invest in Peace project. This is very much in line with our efforts to support the Government of Sri Lanka to achieve the Millennium Development Goals by the year 2015.

I am pleased that this training programme has set high standards and evolved as a model for skills development in this country.

May I express my sincere appreciation to the project management team and I congratulate the five hundred skilled construction artisans who have successfully completed the training course. I am confident they will contribute to post conflict and the tsunami rehabilitation efforts of Sri Lanka.

Abu Y.M. Selim
Country Director
United Nations Development Programme

Vission

“Enhance the professionalism to the Sri Lankan construction industry”

Mission

“Develop and implement scientific training methods, in order to integrate skilled artisans into the construction industry”
